PROXIMITY DETECTION

EMI REDUCTION FILTERS

IntelliZone
PROXIMITY DETECTION

WATER LINE FILTER

This specially shielded 36" non-conductive water line helps reduce system interference (EMI) on the IntelliZone Proximity Detection system.

STANDARD SIZES:

1.25" x 36" L (JIC M to JIC F) Part #10004580

1.25" x 36" L (NPS M to NPS F) Part #10004583

1.50" x 36" L (JIC M to JIC F) Part #10004588

1.50" x 36" L (NPS M to NPS F) Part #10004589

Custom lengths available upon request.

EMI FILTER

This capacitive filter is designed to reduce electromagnetic interference (EMI) on the Matrix IntelliZone™ Proximity Detection System. This EMI Filter significantly reduces the number of nuisance trips generated by noise on the machine and in the cabling.

Rated for use with 1000VAC or less Continuous Miners. Easy to install and supported by the Matrix field service team. Part Number 10004521

PROXIMITY DETECTION

ACCESSORIES

**STATUS
SCREEN**

CM DIAGNOSTICS

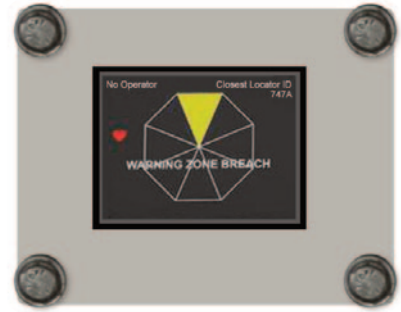

Provides a quick visual status report on your IntelliZone system drivers and locators.

- Easy to diagnose system without Faceboss
- No underground laptop required
- Decreases time to trouble shoot system
- Six screens for status and diagnostic

IN-CAB DIRECTIONAL DISPLAY

Provides mobile equipment operator with an in-cab visual alert when an IntelliZone locator enters a safety alert zone. Indicates RED ZONE or YELLOW ZONE activity. Also provides diagnostic screens for system.

Matrix Part # 10002867

**MULTI-LOCATOR
CHARGING STATION**

Simultaneously charges up to six IntelliZone locators.

Matrix Part # 10001710

**LEATHER LOCATOR
POUCH**

Tough, protective leather pouch provides a secure way to wear and protect your IntelliZone locator.

Matrix Part # 10001056

**FLEXIBLE LOCATOR
PROTECTIVE CASE**

A lower cost way to help extend the life of your locator. Soft, flexible material cushions the blow should your locator be dropped on a hard surface.

Matrix Part # 10004155
