

ATRS ROOF STRAP HOLDER ADAPTER KIT

The Matrix ATRS strap holder adapter kit can be mounted to the ATRS on a roof bolter to allow operators to install roof straps in a safe and more efficient manner.

FEATURES:

- Left- and right-arm mounting plates bolt to existing holes in the ATRS.
- Strap holding arms are made of high-tensile steel to resist bending
- Strap holding arms swing in and store under plate for protection when not being used
- Center strap holder bolts to the existing ATRS holes
- Once installed, the unit remains in place so it will not interfere with the bolting process while straps are not being used
